AN AMERICAN NETTING COMPANY

# Trust the net

## GOLDBLOCK™

Our **GOLDBLOCK™** debris netting comes in a variety of strength ratings from 200ft-lbs. to 17,500ft-lbs.

With the ability to contain falling concrete, steel, or tools. Our Construction nets and Industrial nets are custom built to fit any project, ensuring your workers and passersby are safe from falling objects and debris.

Our nets can be custom fabricated for any project need. As part of an overall containment netting program for new Construction or repair, **GOLDBLOCK™** multi-layered custom netting will contain concrete spalling and Construction debris by shielding work areas and public ways.

If your project requires certified engineering in any of the 50 United States, we can help with that too!

WOULD YOU LIKE TO OFFER A "TURNKEY" PROJECT TO YOUR CUSTOMERS? NOW YOU CAN! THE ANSWER IS ALWAYS **YES!**

the net

3/8 inch mesh 60% opacity

## Determining Net Rating\*

A good way to estimate for net rating is to multiply the approximate weight of debris by the distance it will fall before striking the net.
